

Welcome Iconspack-Builder

This is a GUI tool for creating OpenCanopy icons for use with OpenCore.
Create a set of PNG icons at the correct size and resolution (see below)
They can be named anything during creation but must be renamed to follow OpenCore/OpenCanopy requirements.

- Selector.png
- Selected.png
- Apple.png
- ExtHardDrive.png
- AppleRecv.png
- ExtAppleRecv.png
- HardDrive.png
- AppleTM.png
- Windows.png
- Tool.png
- Shell.png
- Left.png
- Right.png
- Background.png

TAKE NOTE:

- * New: Background.png for OC 0.6.6 and Higher must be 3840x2160 in 144 pixels for 1080p
- * New: Left.png and Right.png for OC 0.6.6 and Higher must be 80x80 in 144 pixels
- * New: Selector.png for OC 0.6.6 and Higher must be 288x80 in 144 pixels

- * Selector.png must be 80x80 in 144 pixels
- * Selected.png must be 288x288 in 144 pixels
- * All the others must be 256x256 in 144 pixels
